ANA WOODWARD
PRIMARY EXAMINER

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present claims are deemed allowable over the prior art of record in that the latter neither anticipate nor render obvious the process of applying to a porous and/or absorbent substrate a radiation curable-liquid coating composition comprising at least one component having (meth)acryloyl groups and dynamic viscosity of less than 2,000 mPa.s and a polyamide additive. The curable compositions of U.S. 4,929,494 (Matsui et al) and U.S. 4,526,920 (Sakashita et al), while containing compositions comprising a component having (meth)acryloyl groups, differ in essence from the presently claimed invention in not teaching or rendering obvious the incorporation of a polyamide additive. Accordingly, the subject matter of the present claims is deemed allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
